

Inspiring a Life-Long Love For Learning

At the Pen Ryn School children are our reason for being. Every child is unique and special - which makes caring for them both an honor and privilege.

With our two core preschool programs at Pen Ryn, we pride ourselves in making preschool for children ages three and four fun in a way that inspires a life-long love of learning.

The emphasis is on curriculum-based academics in a creative, nurturing, hands-on environment - enabling children to develop the important social and academic skills needed as they prepare for Kindergarten and beyond.

Raring to Go

Pre-K 3

Our three-year-old students are raring to go and so are we!

The Pre-K3 program takes an interactive approach to teaching letters, numbers, shapes and colors. The curriculum also introduces early science and math concepts, and offers activities designed to strengthen fine and gross motor skills, self-expression and self-confidence. The children learn about weather, animals, community helpers, transportation, holidays and nature. Finally The Pen Ryn Pre-K3 program reinforces healthy habits, good manners, and many other social skills.

Pen Ryn offers families flexible options which include three- and five-day programs comprised of half- or full-day sessions.

Early morning and after-school care is also available.

We hope you will consider The Pen Ryn School for your child. We invite you to visit and experience our Preschool in action.
